

Margarita Instructions

½ Gal. of Mix

**½ Gal. of Water
x5**

**1.75 Liters of
Tequila**

- * Add ½ Gal. of mix into jug.
- * Add water into empty mix container then pour into jug repeat 4 times. (Total 2 ½ gallons of water)
- * Add 1.75 liter of tequila into jug
- * Cover jug and shake well
- * Fill margarita mix into machine

To avoid unfrozen margaritas always refill margarita mix when the red light signal turns on. Never run machine on empty. Our brand of mix must be used in order prevent machine damaged. Other brands of mix will over freeze.
